

Communicating with ECMC

Recently, a second field was added to the NYS EMS Collaborative Protocol App for ECMC. Please select carefully:

- The top selection (716-898-4888) is for calling **Medical Direction**. **PLEASE**, use this line if you are seeking medical orders **ONLY**. A provider will often have to interrupt the care of a patient to take this call.
- The bottom selection (716-898-4911) is to be used for **Trauma Pre-Notification report**. Please pre-notify as soon as possible so we can ensure that the proper resources are ready when you arrive.
